SPOT LIGHT FEATURE

FAIL SAFE “FORGET ME NOT” FEATURE

To minimize the risk of leaving your K-9 in the vehicle, use our Auto ON Only or “Forget Me Not” power mode. Turning ON the Ignition ALWAYS turns ON our system and the Handler must manually press and hold power button to turn it OFF. The Handler then receives an audible and visual warning to remove the K-9.

" SHUTTING DOWN "
"!! REMOVE K-9 !!"

This is the safest mode of operation and solves the risk of forgetting your K-9 in the vehicle.
